

Use Your Head While Using a Forklift

There are many opportunities for injury and damaging property while lifting and moving large loads with a forklift. Therefore, it is up to you to exercise caution and follow these safety tips:

- ◆ Perform pre- and post-workday inspections on the machines.
- ◆ Carry and tilt back loads no more than 6 inches from the ground.
- ◆ If you are carrying a load that obstructs your view, transport it backwards.
- ◆ Sound the horn when you are making turns or cornering.
